HTML 5 Remote Gateway Labs

<http://labs.protechtraining.com>

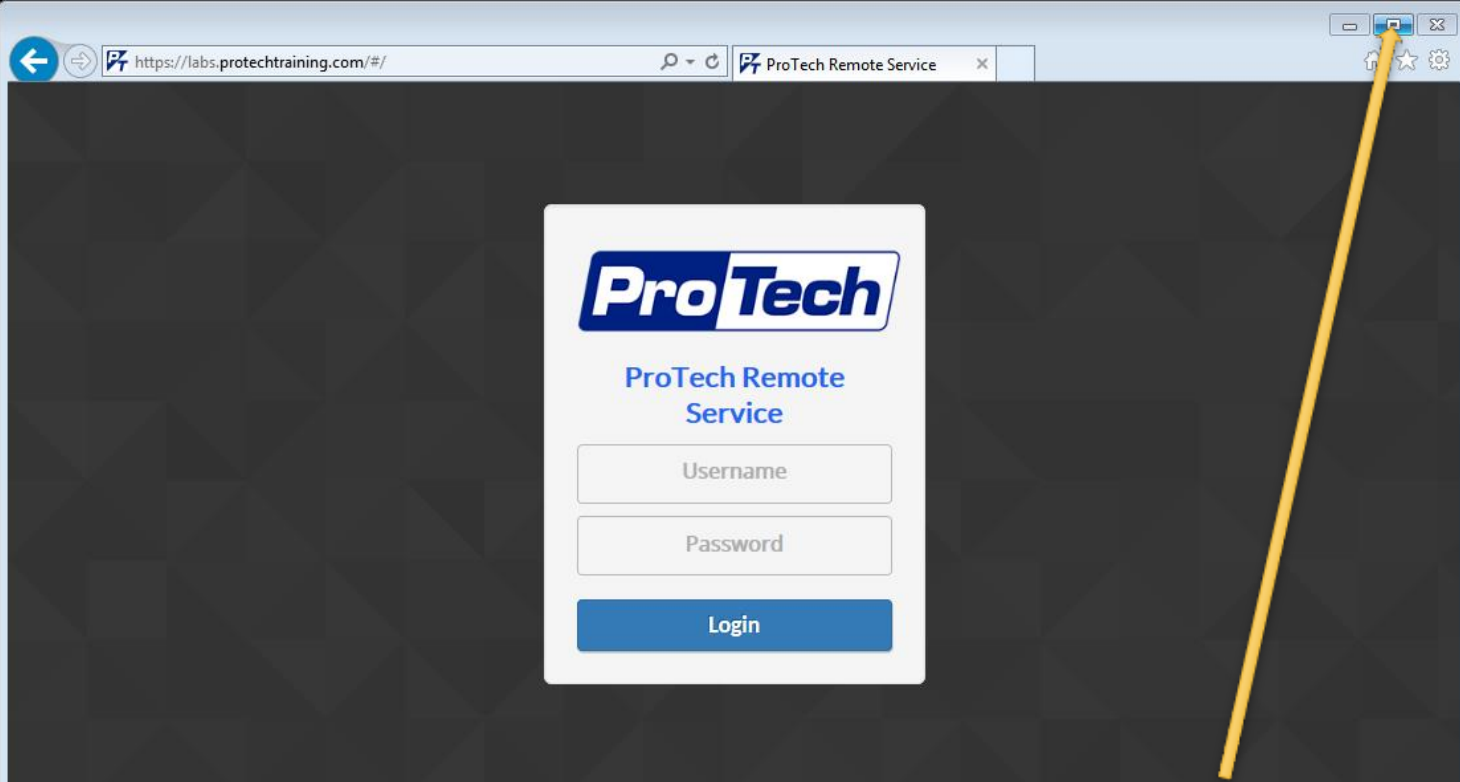

Most common compatible HTML 5 browsers include:

- ✓  Microsoft Edge (on Windows 10)
- ✓  Microsoft Internet Explorer 11
- ✓  Google Chrome
- ✓  Mozilla Firefox
- ✓  Apple Safari (for PC or Mac)

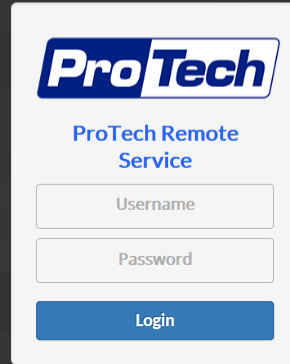

When connecting to your labs, it is highly recommended to place the HTML 5 browser on your local computer into either a maximized window or Full Screen Mode (preferred) prior to logging in.

Once you log in, your resolution will be locked until you disconnect from your remote lab and reconnect at a different screen/window size.

To maximize your browser window, select the maximize button

The login form is centered on a dark background with a geometric pattern. It features the ProTech logo at the top, followed by the text 'ProTech Remote Service'. Below this are two input fields: 'Username' and 'Password'. At the bottom is a blue 'Login' button.

A maximized window will retain your local taskbar and browser title bar. While this may be useful at times, it can also be confusing and distracting as you will now have multiple taskbars and title bars once connected to your remote lab computer.

Remote Lab Connection using Maximized Browser Window Multiple Task Bars

Remote Lab Task Bar
Local Task Bar

To avoid confusion with multiple task & tile bars, it is advisable to place your browser into Full Screen mode. Steps may be different based on which browser you are using. Most browsers can be toggled in and out of Full Screen mode by hitting the F11 key.

The image shows a login form for ProTech Remote Service. At the top is the ProTech logo, which consists of the word "Pro" in white on a blue background and "Tech" in blue on a white background. Below the logo, the text "ProTech Remote Service" is displayed in blue. There are two input fields: one for "Username" and one for "Password", both with light gray borders and placeholder text. Below these fields is a blue "Login" button with white text.

Once in Full-Screen Mode, your taskbar will disappear and your browser title bar will auto hide.

You will enter your assigned ID on this screen.

Each PTACCESS## or PTACCESS### will be **unique** to only you.

If multiple students use the same ID, they will bump each other out of their remote lab.

A screenshot of the ProTech Remote Service login interface. At the top is the ProTech logo. Below it, the text 'ProTech Remote Service' is displayed. There are two input fields: the first contains the text 'PTACCESS01' and the second contains a series of dots representing a password. Below these fields is a blue button labeled 'Login'. Three red arrows point from the text on the right to the input fields and the login button.

Input method

☒ None

No input method is used. Keyboard input is accepted from a
connected, physical keyboard.

☐ Text input

Allow typing of text, and emulate keyboard events based on
the typed text. This is necessary for devices such as mobile
phones that lack a physical keyboard.

☐ On-screen keyboard

Display and accept input from the built-in ProTech Remote
Service on-screen keyboard. The on-screen keyboard allows
typing of key combinations that may otherwise be impossible
(such as Ctrl-Alt-Del).

Mouse emulation mode

Determines how the remote mouse behaves with respect to
touches.
